The work plan for the months of July and August 1950 in the pro-Tito Communist Party (Babic), Trieste, was defined as follows:

- a. The free distribution of Yugoslav press material in Slovene and Italian must be carried out in the Trieste area. It is to include the following papers: Tanjug bulletins from Rome, Prigorski Dnevnik, Gospodarski Dnevnik and the Progresso. This activity will be continued through the month of August.
- b. We must find persons suited to infiltrate into Cominform Communist Party cells to conduct espionage and come into possession of cell reports. It would be best to find both young and old people to carry out this work, that is, those who have been passive until now. We have been concentrating on this goal for the past two months.
- c. We must concentrate on organizing new cells at all levels to be made up, if possible, of three men. This must be done because Yugoslavia lost considerable support in all fields after the Cominform rift. A few of these small cells already have been set up but it appears to be a very difficult task.
- d. Each member must bring a new member into the Party. The new members should associate themselves with the worker and farmer unions, and the Liberation Front (OF)
